HONGKONG, JULY 26TH. 1876.

THE Chinaman is welcomed in most countries where labour is scarce and the soil is fertile. He is capable of performing more | Conta (Becretary). work than any other Asiatic, and is nothing loth, as a general rule, to do his utmost so long as bo is fairly paid. In hot climates he is an invalorable agains for developing the resources of the country. Thus in the Straits Settlements he thrives exceedingly There is plenty of work for him, at a high two mouths. The steamer was now in first-class berman of the Poyal Oak and told him the opportunity only, is likely to be seized to give two or three ones. The two former facts are so well known that they need no comment, and must be put up with until the Chinese see fit to improve themselves. The latter is an evil which has frequently been to answer any questions felt in other places as well us the Straits Settlements. Only the other day a collision took place in the Netherlands Indies. on Kundur Island, between the members of two Chinese secret societies, on which occasion a Chinaman lost his life, several pepper and gambier gardens were plundered, and various persons carried off. Tranquillity was not restored until nine of the leaders of the movement had been captured by the Authorities. The prime mover of the riot, however, as frequently happens, managed to effect his escape. These outbreaks are of common occurrence both in Malaya and the Dutch Indies, and give a great deal of trouble to the Authorities in those places.

The Sarawak Government, as stated in our

columns some time back, has pussed severe

laws against the Chinese Secret Booleties, and only a short time since a man who was proved to have acted as the leader of a Hoey in that State was executed. Considering the Intal nature of the broils to which the societies give rise, strict and represive measures should be put in force against them. They are a standing menace to the percoable members of the Chinese community, and cannot, therefore, be too stornly dealt with. The governments of those countries to which Chinese emigrants lating against the oristence of these Secret Societies. Although naturally of a most pacific and contented disposition, the Societies every now and then convert the Chinaman into a dangerous disturber of the peace and nuisance to the community.

THE Japanese Government evidently intends a source of contention between it and the Government of Poking for the future. It will be remembered that some time last year the simple people of Loo-Choo, following their usual and ancient custom, sent tribute to the Emporer of Curva. They had for a long period sent tribute impartially to both Japan and China, and nothing had and \$714 belance of judgment recovered in No- cession to power, are still in diagrace, avaiting THE VARIOUS HOUSE FLAGS hitherto bein said against the practice: After the Formosan difficulty, which was brought about by Japan capousing the cause of its Loo-Chooan subjects, the islands came into more prominence, and the movements of the inhabitants began to be regarded with a little more interest. The Jananese Government, after baving gone to great expense, and nearly plunged into. NEW CODE OF CIVIL PROCEDURE \_\_ war in order to protect their interests, seems to have turned more attention to this small southern dependency. The efficer of the virtually been made a province of Japan barracks are, we believe, in course of construction, and a body of Japanese troops will be stationed in the principal island. Finally, a Japanese native paper states that it has been settled that, if any Loo-Choons wish to go to China for business purposes, they must apply for a permit from the Japanese Government. From all this it is plain that the Japanese have resolved to let the natives of Mesers, Wilson, Nicholla & Co. | the Loo-Choos know who is master of the group. There is now little chance of the Chinese Government receiving any more tribute from the Loo Chooans. It is cert ton tainly just as well that there should be no more little mistakes of this kind. They are apt to cause a good deal of irritation and might even lead to a serious quarrel. The Japanese have done right to show the Loa-Coooans convincingly where their allegiance is due and expected.

A SOLDIER TUENED MONK. At the beautiful chapel attached to the monastery of the Disonload Carmelites in Kensington on the morning of the 11th June, a small, but very select and atistogratic, company of Roman Ontholics assisted at what was to thera na event of minimal interest. Lord Charles George Archibald Danglas, the only brother, and believe, the beir-presumptive of the Dake of Hamilton, bas became a Catholic pricet; and on this occasion, at the Carmelite Chapel, lie sang his first solemn high mass. The ceromony was attended with much pomp. The rolus of the noble priest and of his deacon and sub-deacon were of the most gurgeous description, and the masic, as it always is at this chapel, was anperly. Lord Archibald Donglas was born in 1847. He was educated at Eton. He was appointed a cornet in the 11th Hussars in 1866, and he was aide-de-camp to Baron Napier of Magdala during the Abvesinian war. He is the son of the eleventh Dake of Hamilton and of the Princess-Mary, daughter of the Grand Duke of Baden and consin of Napoleon III. His voice is sonorous and musical, and he sang the many with great expression.

THE ULTRAMONTANES IN BELGIUM. From Brussels comes the information that very ampleasant results are likely to ensue upon the Ultramontane victory in the country. A short time since a strong effort wis made by M. de Lavaleye and other distinguished Liberal writers to ensure the success of their party by the establishment of a magazine which should be issued at sufficiently low price to enable the poorest to purchase it. It was called the Revue Boloique, and the price was half a franc. The establishment of this journal has bowever, had no apparent effect other than that of stirring up the Ultramontane party to increased activity. GARIBALDI'S ISLAND HOME.
